The Circulatory System

1. How much blood does an average person have? 4-5 litres.
2. What is the name of the organ that pushes the blood around the body?
The Heart.
3. What colour is oxygen-rich blood? Red
4. What colour is oxygen-poor blood? Blue
5. Fill in the blanks:
"Blood flowing away from the heart travels in arteries. Blood flowing towards the heart travels in veins."
6. How many blood cells die in the human body each second? About 8 million
7. How many chambers in the heart? 4 chambers
Name them: Left Atrium Right Atrium
 Left Ventricle Right Ventricle
8. Label this diagram of a heart:

Name _____ Date _____

UNDERSTANDING MULTIPLICATION USING ARRAYS 5

Look at these arrays and change them into multiplications.

Example

<pre> OOOOO OOOOO </pre>	$6 \times 2 = 12$ $2 \times 6 = 12$
--	--

1)

```

OOOO
OOOO
OOOO
                
```

 $__ \times __ = __$
 $__ \times __ = __$

2)

```

OOOOOOOOO
OOOOOOOOO
OOOOOOOOO
                
```

 $__ \times __ = __$
 $__ \times __ = __$

3)

```

OOOOOOO
OOOOOOO
OOOOOOO
OOOOOOO
                
```

 $__ \times __ = __$
 $__ \times __ = __$

4)

```

OOOOO
OOOOO
OOOOO
OOOOO
OOOOO

Cardiovascular/Lymphatic System: Name: _____

It's Totally Tubular!

What You Need to Know:

- Three Types of Circulation:**
1. _____: arteries and veins _____ with blood
 2. _____: pulmonary artery carries deoxygenated _____ to release CO2 and pulmonary vein carries oxygenated blood back to the heart
 3. _____: arteries bring oxygenated _____ and veins return deoxygenated blood back to heart

- Function:**
1. Carry _____ & _____ to cells & _____ and _____ AWAY from cells
 2. Contains cells that _____
 3. Includes _____

- a. _____ to all parts of body and has _____
1. _____: _____ two chambers that _____
 2. _____: _____ two chambers that _____ The right ventricle pumps blood to the lungs, while the left pumps blood to the body.

- b. Blood Vessels carry _____ every _____ blood _____ heart to body
1. _____
 2. _____ blood from body _____ heart blood vessels
 3. _____: microscopic _____ vessels

- (only ONE CELL THICK!!)
- i. **Nutrients** and **oxygen** diffuse _____ body cells
 - ii. **Waste** and **carbon dioxide** diffuse _____ of body cells

Identify the heart structure for each number below. Then, color the heart showing the path of oxygenated (red) blood and deoxygenated (blue) blood

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____

Related: Printable Science Worksheets for Kids Recommended Human Body Books Extend the activity and explore these amazing colorful human body books to get a better sense of how the entire body works together. The Circulation Game - This fun game for 2-6 players demonstrates the function of the circulatory system as kids move blood cells, food, and waste tokens to their goals. Kids will also see the pathway of blood as the heart pumps. Your students will learn about this body system by studying what can go wrong with it! Circulatory System Notebooking Pages - You'll find several different notebooking pages that help kids learn about the functions of the circulatory system. Heart Anatomy Clip Art, Coloring Pages, Labeling Worksheets and More - You'll find a collection of clip art, coloring pages, labeling worksheets, and more. We love using notebooking alongside any topic or unit study. Diseases of the Circulatory System - This research notebook will help students learn about aneurysms, arteriosclerosis, blood clots, congestive heart failure, coronary heart disease, heart attack, and high blood pressure. Always have reference books on hand to help answer your child's questions. Check out all the great printables below and download a circulatory system diagram worksheet you can use in your homeschool today. Circulatory Worksheets for Kids - These fun cardiovascular system worksheets not only help kids label the parts of the cardiovascular system but also cover how blood flows through the body. Learn more about it with these circulatory system worksheets for kids. The Inner Body Website Cardiovascular System with interactive maps and information. One is of the arteries and the other shows the veins. Circulatory System Lesson Plans If you're looking for circulatory system lesson plans, then you'll love these links. These lesson plans include videos, activities, and notebooking pages. FREE offers are often time-sensitive and may be limited time only. If you are learning about the human body and anatomy and physiology in your homeschool, you are going to love the theme of the free printables we have been offering recently. Other Human Anatomy Worksheets: These free printables are a great addition to learning about the various systems of the human body. >> See the rest of my Human Body Worksheets The heart is the main organ in the circulatory system. These worksheets will help your kids learn the parts of the heart as they label and color the different parts of the heart. Zero preparation time required. How does blood travel through the body? These circulation worksheets also show some of the smaller blood vessels. Kids will see how the respiratory system works alongside the circulatory system to provide food and oxygen to the body cells. She blogs at Classically Homeschooling. It's a great way to introduce kids to the left ventricle, the right ventricle, the left atrium, and the right atrium. Circulatory System Lesson Plans with video links - These lesson plans include having kids draw a heart and the pathway of blood through it, how heart disease can require a transplant, and researching artificial hearts and their design. You'll find human anatomy coloring pages for all the major systems of the body, as well as additional anatomy and physiology worksheets. Sara Dennis is a veteran homeschool mom of six who's still homeschooling her two youngest kids after the older four have graduated, entered college, and moved on to adult life. My favorite is creating play dough models of organs so you can test what your child remembers. Your children will take a look at eight common circulatory system diseases that can plague the body. GET THE CIRCULATORY SYSTEM WORKSHEETS HERE >> More human body worksheets Digestive System Worksheets for Kids Respiratory System Worksheets Excretory System Worksheets Animal Cell Coloring Worksheet Learn about Body Parts by Itsy Bitsy Fun Affiliate links may have been used in this post. Kids can color, label parts, and match vocabulary words with their definitions. Read my disclosure policy here. Kids Guide to the Circulatory Series - The Kids Guide to the Circulatory System is put together by Pacific Medical Training. You'll find everything you need to teach your kids about the human circulatory system. We've been learning about the human body and we're slowly making our way through all of the body systems with my science worksheets. Inside Out Anatomy Circulation Worksheet - This worksheet gives you a look into pulmonary circulation and the path of oxygen-rich blood through the heart. The heart looks like a hollow organ but it has 4 chambers. Human Body Systems Vocabulary Copywork Notebook with 78 pages of vocabulary terms about the human body to copy and remember. Benefit from fifteen years of ESL experience. Circulation Station Coloring Page - This coloring page has kids color the flow of blood throughout the body. Kids will make a stethoscope, learn about heart disease, and discuss the definition of heart terms such as heart attack and heartthrob. Free Human Anatomy Coloring Pages for Students A fun way to introduce your kids to anatomy is with coloring pages. We have listed out some human anatomy coloring pages that are great for kids of all ages. It then goes through the left atrium to the left ventricle and out through the aorta to the rest of the body. Learning about this body system includes studying blood type, the function of blood, and the heart. Plus kids will learn about the flow of blood not only through the heart but the rest of the body. Kids see how carbon dioxide is removed and the blood is enriched with oxygen. Listening lesson plans with mp3 files also available. It has an important job to play and that's to pump blood throughout our body. Eating healthy food makes sure the arteries do not get blocked off. Plus flashcards. Smart Lab You Explore It: Human Body Model SmartLab Toys Totally Squishy From Head-To-Toe Learning Resources Human Body Model Melissa & Doug Magnetic Human Body Anatomy Play Set With 24 Magnetic Pieces and Storage Tray See the major pathway of the circulatory system after you finish the coloring page. Circulatory System Matching Worksheet - This worksheet has kids match the vocabulary words with the definition. The blue veins are all coming towards the heart because they are low in oxygen and this is what I tell my kids when we talk about the circulatory system. For example, kids will need to match red blood cells with the part of blood that carries oxygen and white blood cells with the part of blood that fights infection. We have created a Free Diseases of the Circulatory System Notebooking Research Journal to go along with this study. All of the arteries are in red because they carry blood away from the heart and it has been replenished with oxygen. You don't have to know everything but you can look up the answers together. Human Body Worksheets Our team has been busy creating many resources on the human body and the human body system, such as human body worksheets. These will be great to accompany the Apologia Anatomy and Physiology book as well as any human body unit study. Introduction to the Circulation System Lesson Plans - You'll find a series of lesson plans that walk kids through learning about the human circulatory system. This will help your children memorize the different parts of the circulatory system by using the free labels included. There are two pictures side by side. I also like to discuss what's in the blood but I'll save that for our immune system discussion for now. When the blood leaves the heart it is at its highest pressure to ensure that it can travel to the rest of the body. My kids are always asking about their bodies so these worksheets are going to come in handy when we're ready to jump into our biology unit. Worksheets that speak. These free circulatory system worksheets will help you easily teach your children all about the human circulatory system. Recommended Human Body Kits Explore the body with these hands-on human body models to get a feel for where the organs or located within our bodies. Worksheets that motivate students. Worksheets that save paper, ink and time. Heart Labeling Worksheet - This worksheet shows the path of blood through the heart and lungs. Grammar, reading, vocabulary, speaking. Human Body Systems Labeling Sheets for every body system, with answers included. The Human Circulatory System Today we are focusing on the circulatory system which is an important network of organs and vessels responsible for the flow of all our blood, nutrients, hormones, oxygen and gases to and from our cells. All with comprehensive Teacher Notes included. There are many activities you can do and discuss your heart rate while at rest and then after exercise, they're some wonderful books to illustrate what you're discussing as well. The information includes an explanation of pulmonary circulation. While there are many smaller arteries and veins that branch off, I just focused on the larger ones here. Free Circulatory System Worksheets: Circulatory system worksheets are a great way for kids to learn about the human body. If you enjoy learning with science unit studies you are going to love all the freebies and round-ups we are working on! You may have seen our post on Free Printables for Apologia's Elementary Anatomy Book where we had all the freebies organized by lesson in the book. I am going to be doing the same thing in this new series where each post is focusing on a vital system of the human body. It's a great addition to your study of the circulatory system. The heart is the engine of the body and is responsible for distributing blood that is oxygen rich to the rest of the body. The arteries can start to get build up from the fatty foods we eat that can lead to blockages and heart attacks. Use coupon code "ESLPR" on registration for discount! Live Worksheets Worksheets that listen. Circulatory System Worksheets, Video and Quiz - This link includes not only worksheets, a video, and a quiz, but also an interactive activity that kids can complete on any device. Advertise here Grammar worksheets Vocabulary worksheets Listening worksheets Speaking worksheets Reading worksheets Writing worksheets Cinema and television worksheets Games worksheets Worksheets with songs Teaching resources This post may contain affiliate links meaning I get commissions for purchases made through links in this post. You'll find worksheets for labeling each body system, checking your kids' reading comprehension, and learning vocabulary. The right side receives blood that is low in oxygen from the body, it goes through the right atrium to the right ventricle than to the lungs to get oxygen. High Quality ESL Lesson Plans - Free Samples - \$26 Membership Be a better teacher! Hundreds of PDF lesson plans. Get the circulatory system worksheets below along with the other human body worksheets in the bundle below. Awesome Anatomy Heart Diagram Worksheet - The Awesome circulatory system diagram worksheet gives children the chance to color the heart as they learn about the different parts. Our Human Body Systems Labeling and Diagramming Worksheets have an Instant Download for the Circulatory System. My Book of the Human Body: For Kids Ages 6-12. Human Body! (Knowledge Encyclopedias) Inside Out Human Body: Explore the World's Most Amazing Machine-You! First Human Body Encyclopedia (DK First Reference) Me and My Body The Magic School Bus Inside the Human Body To keep our heart healthy, we have to get a lot of exercise and eat healthy food that is low in fats. Study the Anatomy of the Heart A study of the circulatory system needs a detailed study of the anatomy of the heart. Exercise keeps our heart healthy and strong so that it can get blood to the rest of our body. You'll find lesson plans, activities, information about the heart, and more.

Closed system has continuous vessels hence able to generate high pressure. Circulates blood over longer distance. Circulates blood at a faster rate. Efficient transport of nutrients and waste products. Animals are more active. iv) Distinguish between single circulatory system and double circulatory system Single circulatory NCERT Solutions for Class 7 Science Chapter 11 - Free PDF Download. NCERT Solutions for Class 7 Science Chapter 11 Transportation in Animals and Plants is one of the important study materials for the students of Class 7. In 7th Class, students are introduced to lots of new concepts which are essential to understand the topics that will be taught in class 8. A grade of "C" or higher is required for completion of a Developmental course requirement. Pre-Requisite(s) Test Placement / Accuplacer Placement. DE 020 Academic English II 7 Credits: This course is designed to assist students in developing the critical reading and process writing skills necessary for success in college-level courses. Mammalian Circulatory System . Mammals have a closed circulatory system where a powerful heart pumps blood into arteries. The arteries divide into smaller vessels called arterioles. Each arteriole divides to form a network of capillaries inside the tissues. The capillaries eventually re-unite to form venules, which form larger vessels called veins.
